PG AND RESEARCH DEPARTMENT OF COMPUTER SCIENCE.**

**INDUSTRIAL VISIT 2024-25**

The first year computer science students(56) along with their tutors had visited “Naga Foods Mills”, at Paadiyur branch, dindigul. The purpose of the industrial visit is to understand the wheat flour sales process, explore the technology involved, and gain insights into the operational strategies of a large-scale food manufacturing facility. The visit allowed the students to observe firsthand the various stages involved in flour production, from raw wheat sourcing to the final packaged product. They are able to know the variety of byproducts done by the industry.
