PG DEPARTMENT OF ZOOLOGY

Awareness Programme on "Health and Hygiene"

Date : 29.04.2022

An awareness programme was conducted on 29.04.2022 on "Health and Hygiene" for the Village Community living in Ulagampatty Village near Thadikombu, Dindigul District.

A group of 9 students belonging our II M. Sc Class participated actively in this programme. Dr. Sathiya Bama, Associate Professor & Head, Dr. Eathel Poline, Assistant Professor and Dr. Senthil Elango, Assistant Professor have also participated in this programme along with the students.

Our students generated awareness on Health & Hygiene amongst the village people. Moreover, the Hemoglobin content in the blood of Villagers was also tested and the results were intimated to them. The people with low amount of Hb were advised to take healthy diet. A total of 50 villagers were benefitted from this programme.

DATE:12.05.2022

NO.OF STUDENTS:12

PLACE: Old –Age Home

On 12.05 2022 Our Department organized Extension Activity Programme at Old-Age Home, Dindigul.

15 Students from III-B.Sc Botany were actively participated in the programme. They discussed with the Old- age People on the Topic "Establishing a New Vegetable Garden" and the Importance of Vegetables and Gardening in day today life. Our Students brought vegetable seeds from their villages and we Established a new Vegetable Garden in Old –Age Home, Dindigul . Guardian of the Old –Age Home appreciated the effort of Our Students.

Awareness Programme on "Seed Ball Preparation"

Date : 13.05.2022

Seed Ball distribution Programme for promoting Agriculture

Seed balls were prepared by mixing up of the garden soil (Red soil, humus), cow dung and Jatropha oil in the ratio of 5:3:1. Seeds of various horticultural plants such as Moringa, Hyacinth beans, Pumpkin, Jatropha and other cereals were encapsulated with the above mixture and dried under the shadow. Then it was followed by drying under the sun light.

These seed balls were distributed to the Villagers living in Nagampatti village near Vedasanthur, Dindigul District by 7 students from our I B. Sc Zoology Class.

Dr. P. Sathiya Bama, Associate Professor & Head, Dr. M. S. Selvi and

Ms. T. Aboorvalalitha, Teaching Faculty also participated in this programme on 13.05.2022.

25 villagers were benefitted in this programme.

EXTENSION ACTIVITY REPORT WITH PHOTOS (2021-2022)

Preparation of Dishwashing liquid gel

I year M.Sc. Chemistry students visited Maarampaadi village in Dindigul and interacted with the people of that area. Women's in the village were given training in two sessions.

First session was to prepare a Dishwashing liquid gel at low cost and to start a small scale business to sell the product.

Materials Required: Sodium Lauryl Ethyl Sulphate (SLES) – 1 Litre, Washing Soda- 50g, Tri Sodium Phosphate (TSP)-25g, Food Colour- 2g & Flavouring agent- 10ml

Preparation:

Step 1: To 1 litter of SLES 2.5 litres of water was added.

Step 2: Washing soda was dissolved in 250ml of water separately & TSP was dissolved in 200ml of water separately.

Step 3: Both the liquids in step 2 were mixed with SLES (step 1) and stirred well.

Step 4: Food colouring and flavouring agent were then added to obtain the colour and odour.

Finally the dish washing gel was obtained.

Free samples were distributed to the women's who attended the program

Food Adulteration

Different types of food items are available today in the market. Adulteration or contamination of natural food products is one of the major challenges in today's society. Addition of adulterants reduces the value of nutrients in food. In the second session Women's were given awareness about the various artificial preservatives, artificial sweeteners and colouring agents used in the food products and packeted food items. Easy methods of identification at home were also taught to them. Harmful effects of food adulterants were also discussed. Interaction between the students and the audience was very informative.

HEAD
DEPARTMENT OF CHEMISTRY
M.V. MUTHIAH GOVT ARTS
COLLEGE FOR WOMEN
DINDIGUL - 624 003

முதல்வர்,
அம்.வி. முத்தையா அரசினர்
மகளிர் கலைக் கல்லூரி,
DINDIGUL - 624 001.

Testing of various food items with materials available at home:

- 1. Honey: Contamination: Sugar syrup**
Test: In a glass of water add one tablespoon of honey – if it settles down as a thick drop then its pure honey, if it dissolves quickly its adulterated.
- 2. Turmeric: Contamination: Metanil yellow/ Lead chromate**
Test: In a glass of warm water add a small quantity of turmeric powder, do not shake or stir, as the powder settles down at the bottom after 20 minutes and the remaining water on the top layer is clear, then the powder is pure, if the water is yellow in color then its contaminated.
- 3. Ghee: Contamination: Vegetable oil/ Vanaspathi**
Test: Add a pinch of sugar to a teaspoon of melted ghee in a bottle. Shake well and check after five minutes – if the color changes to red then it contains vegetable oil
- 4. Red chili powder: Contamination: Brick powder**
Test: In a glass of water add a small quantity of Chilli powder, stir well, as the powder settles down at the bottom and the remaining water on the top layer is clear, then the powder is pure, if the water is red colour then its contaminated.
- 5. Pluses: Contamination: Artificial color**
Test: Grind some pulses into a fine powder and add warm water to it, if the water turns bright yellow in color then the pulses are contaminated.
- 6. Apple: Contamination: Wax coating**
Test: Slowly Scrap the outer area of the apple mildly if a white substance peels out then its wax or pour some hot water on apple if an oily layer comes out then its coated with wax.
- 7. Milk: Contamination: Detergent**
Test: Add about 15ml of milk in a closed bottle and hake well for a few minutes if it foams well then it contains detergent.
- 8. Salt: Contamination: Chalk powder**
Test: Add a teaspoon of salt to a glass of water and stir well if the water turns white in color then it contains chalk powder.
