DINDIGUL – 624 001, TAMIL NADU, INDIA**

(AFFILIATED TO MOTHER TERESA WOMEN'S UNIVERSITY, KODAIKANAL)

RE-ACCREDITED WITH 'A' GRADE BY NAAC

REPORT

1. Title of the Programme : A One Day State Level Webinar on "Green Chemistry" Organized by Department of Chemistry & IQAC.
2. Aim : To enrich the knowledge about Green Chemistry among the Students.
3. Objectives (Outcomes):
 - a) Gain knowledge about how to do organic synthesis in a safe manner.
 - b) Obtain details about the reduction of time period required to carry out the reaction.
 - c) Acquire knowledge about the use of Green Solvents.
4. Date : 26.7.2021
5. Time : 10.30 am to 11.30am
6. Platform : Google Meet
7. Link : <https://meet.google.com/hgj-ggoq-czk>

12. Report:

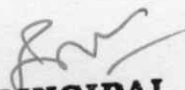

The Department of Chemistry and the Internal Quality Assurance Cell, M.V.Muthiah Government Arts College for Women, Dindigul organised a one day State Level Webinar on "Green Chemistry" on 26.07.2021 through online mode using Google Meet Live stream.

Dr. M. Dhanalakshmi, Assistant Professor and Head, Department of Chemistry welcomed the online gatherers and Dr.V.Anuradha, Principal of the College delivered the Presidential address. The Resource Person, Dr.C.Meenakshi, Assistant Professor of Chemistry, Sri Meenakshi Government Arts College for Women (A), Madurai, gave thought provoking ideas to carry out the Organic synthesis in a safe manner. She also highlighted the reduction of the time period required to carry out the organic reactions and how to reduce the amount of unwanted by products. She also explained the safe use of Green solvents to protect our environment from pollution.

Dr.P.Gnanasoundari, Assistant Professor of Chemistry proposed the Vote of Thanks. This Webinar was exclusively arranged for the B.Sc & M.Sc. science major students to enhance their knowledge on Green Chemistry. Staff & students from all disciplines of our college had participated and got benefited.

The Google Feedback Forms were collected from 104 participants and E-Certificates were issued through their registered email.

WHATSAPP INVITATION

Greetings to All

PG Department of Chemistry,
M.V.Muthiah Government Arts College
for Women, Dindigul,
cordially invites you to participate
in a one day State Level Webinar on
"Essential Minerals for Health and
Environment Remediation"

Resource Person:
Dr.R.SAYEE.KANNAN
M.Sc.,M.Phil.,M.Ed.,Ph.D.
Assistant professor of Chemistry,
Thiagarajar College,
Madurai.

Date:21.03.2022.

Time: 10.30 AM to 12.00 PM

No Registration fee

The participants will receive the
E-Certificate after filling the feedback
back form.

Participants are asked to fill their
details correctly to get the E-certificate
without mistakes.

All are cordially invited

With Regards

The Post Graduate Department of Zoology, M. V. Muthiah Government Arts College for Women, Dindigul organized a one day International Webinar Entitled "Aquatic Ecosystem – A boon for sustainable development" on 14.09.2021 between 10.30 a.m. and 12.30 p.m. (IST) through online mode using Google Meet Live stream.

Dr. P. Sathiyabama, HOD and Associate Professor, Department of Zoology, welcomed the online gathering and Dr. D. Lakshmi, Principal of the College delivered the Presidential address. The Resource Persons " **Dr. K. MARIMUTHU**, Professor in Dept. of Biotechnology, Faculty of Applied Sciences, AIMST University, Malaysia highlighted the importance of aquatic biodiversity and its conservation. **Dr. ANITA M. GEORGE**, Researcher, Queensland Museum, Australia and Senior Researcher and Marine Biologist Biological Oceanography Division, NIO, Goa delivered a lecture on "Treasures of our Ocean and its status".

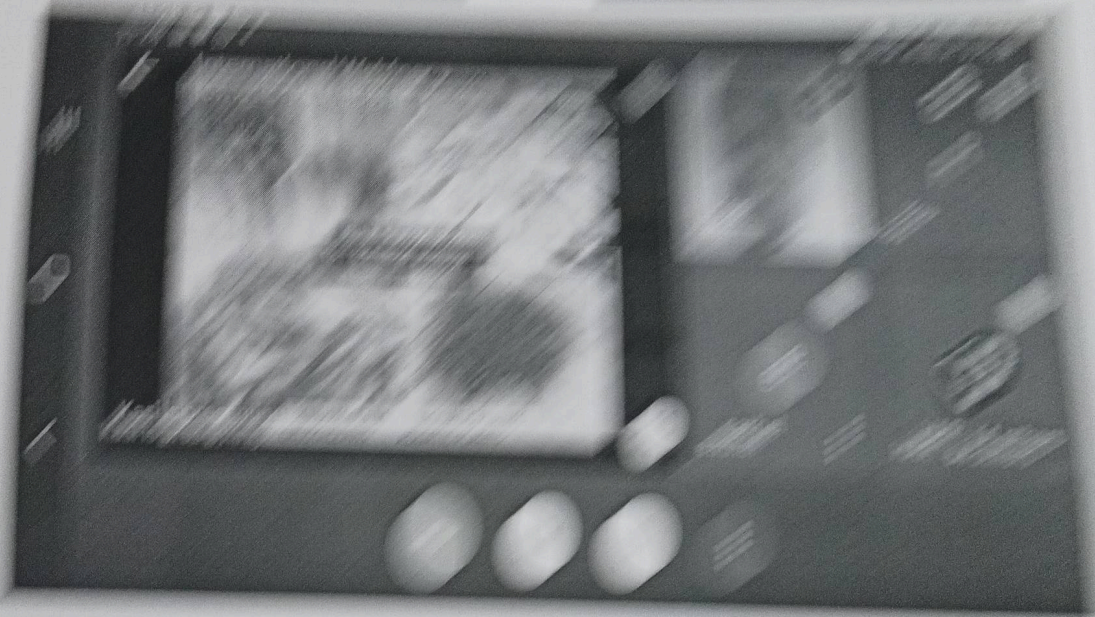

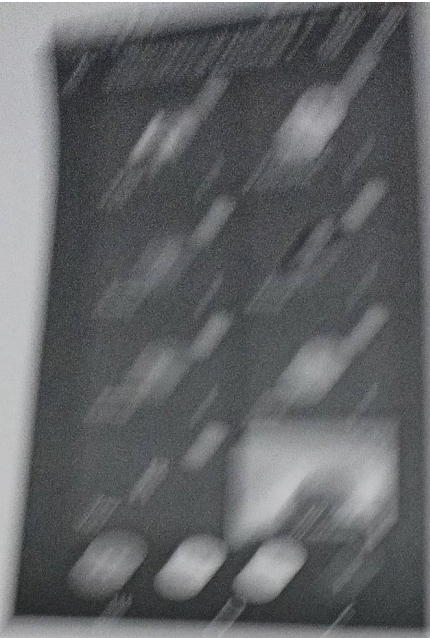

Dr. B. Rajagopal, Assistant Professor, Department of Zoology proposed the Vote of Thanks. This Webinar was exclusively arranged for the benefit of the students to provide awareness on importance of aquatic ecosystem, its resources and its economical importance.

90 Students participated from the UG and PG classes of various institutions from India and abroad got benefitted.

The Google Feedback Forms were collected from the students and E-Certificates were issued for the participants through Online mode.

PG & RESEARCH DEPARTMENT OF GEOGRAPHY AND IQAC

Jointly Organized

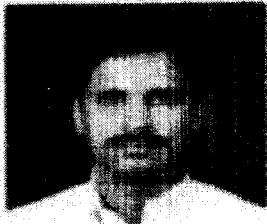

State Level Webinar Series June -2021

About the Webinar Series

The Department of Geography are continuously connected with the students through teaching. But, in this pandemic situation, when the renowned resource persons from different university can deliver their valuable speeches to the society from their place, we can arrange the webinar series for the benefits of the academicians and students. The Department took the initiatives under the wise supervision of our Respected Principle/Patron Dr.Anuradha madam in Chief and Dr.J.Thenmozhi madam convener /Associate Professor and Head, Department of Geography can frame the webinar series of six days with six lectures on "Recent Trends in Geography" starts at 04.06.2021 end at 14.04.2021. The Department of Geography has association with IQAC to conduct this webinar programme. The programme are started with introduce the Resource person and theme of webinar to the participation. The objectives of webinar were to provide the platform for participation in their research about digital mapping, upcoming software in GIS with free opening software for the students. The sessions end with an intense interactive discussion based question-answer by the resource person and participation. The Webinar Series will be helpful to the curious academicians for all the speakers are intensively involved in their research work and them expertise on their field. The program received an excellent feedback from all the participants. The department including the college acknowledge their homage to the honourable speakers of the webinar Series. The Department of Geography many senior/eminent geographers have participated in the event and have made very fruitful deliberations for the symbiotic development of Geography. The programme was widely appreciated and sets a landmark for organizing this kind of meet. The Department is also thankful to all the members for their constant support and inspiration to organize this type of academic exchange programme.

WEBINAR SERIES -1

REPORT SUBMISSION FORMAT

1. **Title of the Programme** : State Level Webinar “A Hundred Years of Geography in India”
2. **Aim**
 - ❖ The aims of this Webinar on “A Hundred years of Geography in India” that intends to introduce Participation to philosophical and methodological issues in the development of the discipline of geography in India.
 - ❖ To assess the nature and trend of ancient, modern and post-modern trends in the field of geography in India.
 - ❖ Knowing the contributors and the evolution of geography in India through time
 - ❖ Understanding contemporary research in human and physical geography in India.
3. **Objectives (Outcomes)**
 - ❖ The webinar will be useful for participants in understanding perspectives on the development and contemporary trends in Indian geography and its systematic study.
 - ❖ Indian geography is today at an important turning point Modern Indian Geography, if it has to reach the status of science, must start studying our problems of life and living.
 - ❖ The Overall session and Discussion benefitted the Students, Research scholars and Teaching Faculties.
 - ❖ This webinar would help the participants to conduct the classes in an effective way and also it would help them to do their implementation in research work.

EVOLUTION OF GEOGRAPHICAL THOUGHT IN INDIA

- India is the home of one of the **earliest civilizations**
- Indian scholars by no means are less than that of **Greeks, Romans and Chinese**
- Most inventions and discoveries that are believed to have originated in the Western world have their roots in the **ancient Indian knowledge which has >2,000 years old legacy**
- **Formal foundation to Geography** was laid during the British period (1920s)
- First under-graduate programme was started in **1920 at Lahore**; later on it was established in **Aligarh in 1924** and in **Patna in 1927**
- First geographical association [**The Madras Geographical Association**] was established in **1925** at **Chennai**

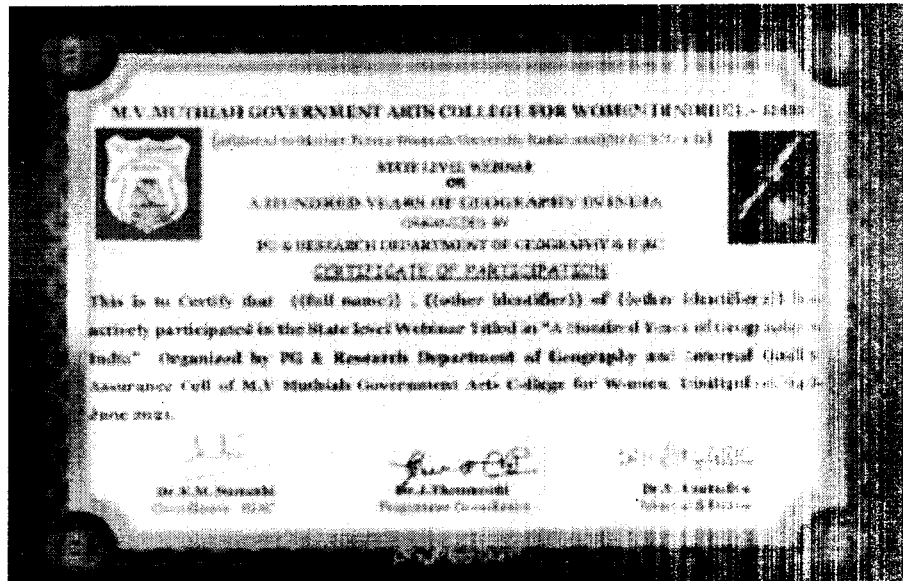

A. Geographical Association and other activities were also started in 1925

WEBINAR SERIES -2

REMOTE SENSING AND ITS APPLICATIONS

REPORT SUBMISSION FORMAT

1. Title of the Programme : State Level Webinar "Remote Sensing and its Applications"
2. Aim
 - The aim of this Webinar is to provide a solid theoretical understanding and comprehensive introduction to the use of remote sensing technologies for different applications in geography.
 - This webinar presents the basic technical and methodological skills needed to employ various types of remotely sensed images and aerial images as a source of quantitative information in geography; including urban planning, landscape ecology, recreation resource management, wildlife management and others.
 - It seeks to develop new insights among students on the use of remotely sensed data in a rapidly changing world.
3. Objectives(Outcomes)
 - It seeks to develop new insights among participants on the relevance of geospatial studies within the field of geography.
 - This will equip participants with technical skills in data interpretation and analysis when using remote sensing data.
 - The webinar remains useful for participants in developing skills in spatial data analysis if they wish to pursue a research program.
 - Prepare the Participants for National and Global Employability

WEBINAR SERIES -3

GIS AND ITS APPLICATIONS

REPORT SUBMISSION FORMAT

1. Title of the Programme :State Level Webinar “Geographical Information System and its Applications”
2. Aim
 - ❖ A geographic information system is a computer system for capturing, storing, checking and displaying data related to positions on Earth’s surface.
 - ❖ GIS can show many different kinds of data on one map, such as street, buildings, and vegetation.
 - ❖ So, students will gain knowledge about GIS and its applications. Students they will understand the GPS, GIS data structure, and develop an idea about GIS data analysis.
3. Objectives(Outcomes)
 - ❖ GIS software is being used widely in almost all fields. GIS software are use, by individual people, communities, research institutions, environmental scientists, health organization, landuse planners, businesses, and government agencies at all levels.
 - ❖ And also, relationship provides a means for GIS to locate, display, analyze and model information.
 - ❖ And its important, important because it helps facilitate the discovery of trends and relationship based on geospatial information.

Report in 100 words:

GIS is a conceptualized framework that provides the ability to capture and analyze spatial and geographic data. Using GIS allows people to see the world in a different way by mapping and position and quantity of things, mapping and density of people and object and mapping any changes that occur. GIS also allows us to find out what is happening inside a specific area or nearby to a specific area. It's a powerful decision-making tool for any business or industry since it allows the analyzation of environmental, demographic, and topographic data. Data intelligence compiled from GIS applications help companies and various industries, and consumers, make informed decisions. It's a strong career, and it will be in demand for a long time. But like all careers, GIS is changing fast with new techniques every day. And it's using the power of a computer there are a range of tools to help display, examine, and analyze the data.

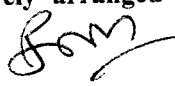

There are no of data that could be displayed and inventoried with the use of GIS or Geographic information systems such as from natural resources, wildlife, cultural resources, wells, springs, water lines, fire hydrants, roads, streams, and also houses. The quantities and so the densities of a certain item within a given area could be displayed and calculated. But there are still many things that you could do with the use of GIS technology. In future of GIS is very optimistic. It's poised for even wider scale adoption than we've seen in recent decades, are more organizations learn how much business value can come from geospatial data.

Report

The Department of Geography and the Internal Quality Assurance Cell, M.V.Muthiah Government Arts College for Women, Dindigul organized a one day Webinar on "GIS and its Application" on 08.06.2021 through online mode using google meet Live stream.

The Department of Geography and the Internal Quality Assurance Cell, M.V.Muthiah Government Arts College for Women, Dindigul organised a one day State Level Webinar on "Disaster Risk Management" on 11.06.2021 at 11 a.m through online mode Using Google Meet Live stream.

Dr. J. Thenmozhi, Associate Professor and Head, Department of Geography welcomed the online gatherers and, Dr.V.Anuradha, Principal of the College delivered the Presidential address. The Resource Person Dr. K.Balasubramani, Assistant Professor, Department of Geography, Central University of Tamil Nadu, Thiruvananthapuram highlighted the Complete disaster risk management cycle includes the shaping of public policies and plans that either modify the causes of disasters or mitigate their effects on people, property, and infrastructure. Lead to greater preparedness, better warnings, reduced Vulnerability or the prevention of disasters during the next interaction of the cycle.

Dr.M.Kirithiga proposed Vote of Thanks. This Webinar was exclusively arranged for the Students, Research Scholars and Industrialists. Research Scholars and other participants to enhance the awareness of disaster management.

A total of 93 delegates from all disciplines of our College had participated and got benefited.

The Google Feedback Forms were collected from Google forms and E-Certificates were issued for the registered participants through online mode.

Thank You

WEBINAR SERIES -6
RECENT TRENDS IN URBAN GEOGRAPHY
REPORT SUBMISSION FORMAT

1. Title of the Programme : State Level Webinar on “**RECENT TRENDS IN URBAN GEOGRAPHY**”
2. Aim : The present webinar is mainly focused on “**Recent Trends in Urban Geography**” it refers to the spatial distribution of towns and cities that has changed over time, to the relevance of an urban economy and geography and associated problems in rapid urbanization.
3. Objectives (Outcomes) :
 - ❖ The webinar will be useful for students in developing ideas on how geographical factors organize urban spaces and how geographers seek to address city-specific problems and issues.
 - ❖ Students will know the characteristics of urban settlements.
 - ❖ Students can define the urban environmental problem and how to solve those problems.
 - ❖ It builds skills for students seeking to enroll in a research program.
4. Date : 14.06.2021
5. Time : 11 am
6. Platform : Google Meet

WEBINAR SERIES -3

GIS AND ITS APPLICATIONS

REPORT SUBMISSION FORMAT

1. Title of the Programme : State Level Webinar "Geographical Information System and Its Applications"

2. Aim

- ❖ A geographic information system is a computer system for capturing, storing, checking and displaying data related to positions on Earth's surface.
- ❖ GIS can show many different kinds of data on one map, such as street, buildings, and vegetation.
- ❖ So, students will gain knowledge about GIS and its applications. Students they will understand the GPS, GIS data structure, and develop an idea about GIS data analysis.

3. Objectives(Outcomes)

- ❖ GIS software is being used widely in almost all fields. GIS software are use, by individual people, communities, research institutions, environmental scientists, health organization, landuse planners, businesses, and government agencies at all levels.
- ❖ And also, relationship provides a means for GIS to locate, display, analyze and model information.
- ❖ And its important, important because it helps facilitate the discovery of trends and relationship based on geospatial information.

Report in 100 words:

GIS is a conceptualized framework that provides the ability to capture and analyze spatial and geographic data. Using GIS allows people to see the world in a different way by mapping and position and quantity of things, mapping and density of people and object and mapping any changes that occur. GIS also allows us to find out what is happening Inside a specific area or nearby to a specific area. It's a powerful decision-making tool for any business or industry since it allows the analyzation of environmental, demographic, and topographic data. Data intelligence compiled from GIS applications help companies and various industries, and consumers, make informed decisions. It's a strong career, and it will be in demand for a long time. But like all careers, GIS is changing fast with new techniques every day. And it's using the power of a computer there are a range of tools to help display, examine, and analyze the data.

There are no of data that could be displayed and inventoried with the use of GIS or Geographic information systems such as from natural resources, wildlife, cultural resources, wells, springs, water lines, fire hydrants, roads, streams, and also houses. The quantities and so the densities of a certain item within a given area could be displayed and calculated. But there are still many things that you could do with the use of GIS technology. In future of GIS is very optimistic. It's poised for even wider scale adoption than we've seen in recent decades, are more organizations learn how much business value can come from geospatial data.

DISASTER RISK MANAGEMENT
REPORT SUBMISSION FORMAT

Documents should be submitted in the following order

1. **Title of the Programme:** State Level Webinar on "**DISASTER RISK MANAGEMENT**"

2. **Aim:** The present webinar is mainly focused on Disaster risk management and their related activities, particularly pre disaster and post disaster management activities

3. **Objectives(Outcomes):**

1. Creating awareness about disaster and its mitigation process among the peoples
2. Give warning before disaster thus people can be prepared and safe from that.
3. Applying efficient, effective, sustainable relief medical and other facilities in disaster affected people thus they can survive
4. Appropriate actions at all points in the cycle lead to greater preparedness, better warnings, reduced vulnerability or the prevention of disasters during the next interaction of the cycle.

3. **Date:** 11.06.2021

4. **Time:** 11 a.m

**PG and Research Department of Geography
Organized**

**National Seminar on
Monitoring the Global Environmental Changing using Remote Sensing and GIS
(MGECRG'21)**

About the Seminar

Global environmental change has become a more extreme weather changes, global warming and natural ecosystem. As the world population grew, the need for more resources also increased. In order to meet the increasing demand for these resources, more industrial activities also grew around the world. These increased industrial activities over the years did not consider the resulting environmental change such as water, air and land pollution. Many ecosystems have been adversely affected to the point where they can no longer with stand or recover from natural disasters resulting from human activities and such disasters include global warming, flooding and extreme weather conditions. The world is faced with challenges in all three dimensions of changes — social, economic and environmental.

REPORT SUBMISSION FORMAT

1. Title of the Program : National Seminar “ **Monitoring Global Environmental changes Using Remote Sensing and GIS** ”

2. **Aims:**

- The Aims of Seminar on “Monitoring Global Environmental changes Using Remote Sensing” intend to introduce the Remote sensing from air borne and space borne platforms provides valuable data for mapping, environmental monitoring and disaster management.
- Geographical informational systems are used especially as a decision support tool especially for planning (urban planning, investment planning, infrastructure planning, economic development, taxation, SWOT analysis, etc.), resource management and impact studies.
- It will teach the possibility to integrate geographical informational systems, remote sensing and different modeling technologies in the field of environmental protection, as well as an important tool for management and decision making.

3. **Objectives (Outcomes)**

- The Seminar is useful to Participants in understanding the map represents the traditional method for storage and displaying the spatial information; it is an abstract representation of the geographic space allowing the increase or generalization of the most important details and also allows hiding unessential details in order to fulfill its objectives.
- Remote sensing is a major source of data and information. Using the remotely sensed images we can obtain up-to-date, cheaper, and larger variety of data for different applications, including environment protection.
- Realization of maps supposes collection of the geographical data from the field. Collection of the spatial data is realized by specific methods of topography and cadastre. The main sources for obtaining geographical data are topographic

PRINCIPAL

Arts College for Women,
Dindigul - 624 001, Tamil Nadu

measurements, scanning or digitization of the existing maps and also by remote sensing.

- The Overall session and Discussion benefitted the Students, Research scholars and Teaching Faculties.
- This seminar would help the participants to conduct the classes in an effective way and also it would help them to do their implementation in research work.

Arts College for Women,
Dindigul - 624 001, Tamil Nadu

About the College

Muthiah Government Arts College for Women was established in the year 1960 in Dindigul by the Tamil Nadu Government as there was no college for women in the district. It was started with an intake of 175 students. The college was affiliated to Madurai Kamaraj University. In 1975, the college was shifted to the new building. In 2003, the college got affiliated to Mother Teresa Women's University, Kodaikanal. The principal, 124 faculty members (including 60 teachers), a Librarian, one Physical Director and 24 Non-teaching staff contribute to the development of the college. More than 3000 students benefited. The college is exclusively beautiful with a view of the historically important "Makkalatal" and the green and pleasant Sirumalai. The institution from its inception has provided facilities like laboratories, co-operative stores, canteen, library, playground and hostel within the campus itself.

About the Department

The Department of Geography was established in 1978, offering B.Sc. Geography course, affiliated to Madurai Kamaraj University, Madurai. In addition, M.Sc. Geography course was started in the year 2004. Currently the department is affiliated to Mother Teresa Women's University, Kodaikanal and offers B.Sc. H.Sc. and M.Sc. Geography courses for the benefit of rural students in Dindigul district. The department works with the motto of nurturing students with appropriate and practical skills besides imparting theoretical knowledge. It became a center for research, extension, and community service. Town planners, cartographers and GIS experts in the department. The staff members are well equipped with the latest technology. The department has 2 master and 2

with stand or recover from natural disasters resulting from human activities, and such disasters include global warming, flooding and extreme weather conditions. The world is faced with challenges in all three dimensions of changes — social, economic and environmental.

We are very happy to invite you for the One-day National Seminar on the theme: "Changing Global Environment Using Remote Sensing & GIS Technology" on 17th April 2022.

About the College

M.V.Muthiah Government Arts College for Women was established in the year 1966 in Dindigul by the Government of Tamilnadu with the objective of providing education to the underprivileged women folk and spread awareness among people about the importance of education. Our college is affiliated to Mother Teresa Women's University, Kodaikanal and at present 3000 students are studying. In 2014 the college is re-accredited with A-Grade by NAAC. The College is a multi-disciplinary institution offering diverse courses. With Tamil and English as medium of instruction, various Arts and Science degree Courses are offered by this college. The college has thirteen undergraduate courses, eleven postgraduate courses, seven M.Phil. courses and two Ph. D courses.

About the Department

The Department of Computer Science was established in the year 1988 with the objective of impart a quality education in the field of Computer Science and strive to develop a computer professional. The Department has modern facilities for teaching, learning, research and offers B.Sc. Computer Science, M.Sc. Computer Science and PGDCA courses. The main aim is to prepare young women minds for the challenging opportunities in the IT industry with global awareness supported by experts in the field of Computer Science.

Besides thesis as an added feather the Department has evolved as Research Department by offering M.Phil. in Computer Science and Ph.D in Computer Science. Apart from this department organizes various programme for the betterment of student community.

About the Webinar

This Webinar aims to stimulate the intensity and need of Cyber Security among the students, teachers from different parts of the country. The motivation to promote Computer Security, Cryptography, Digital Money, Secure Protocols and Security Techniques. This Webinar is designed to give an exposure to different techniques applied on IT Systems Security & Infrastructure, Monitoring Potential Threats and Attacks and implementing Security solutions over Cloud.

Topics to be covered are:

- ✦ Setup your own Cyber Penetration Testing Lab (Kali Linux)
- ✦ Practical demo of Phishing Attacks
- ✦ Cyber Scams related to COVID-19
- ✦ Introduction to Data Breaches & Privacy
- ✦ Useful Online resources for Students & Teachers to learn and practice Cyber Security
- ✦ Cloud, IoT & Blockchain Security

Brief Report

Central Library of M V Muthiah Government Arts College for Women, Dindigul organized a two day Intramural Live (Face to Face) seminar on ' Information Literacy Skills' for the PG final year students and MPhil Scholars of the Departments of Tamil, English, History, Economics and Commerce from 25 October – 26 October, 2021 from 1:30 pm to 3:30 pm.

25th October, 2021

Dr.K.Ramasamy, College Librarian & Organizing Secretary welcomed the gathering. Dr.D.Lakshmi, Principal inaugurated the seminar informally and discussed the importance of learning new e-resources and being aware of plagiarism and reference management tools. Dr.K.Ramasamy, the Resource Person, enlisted the free and open access e-resources available for all the teaching learning and research activities in his first presentation. He discussed and demonstrated about N-LIST e-resources in his second presentation.

26th October, 2021

Dr.K.Ramasamy, the Resource Person, introduced the students to NDLI (National Digital Library of India) and the resources available there along with different browsing methods. Then, he enlightened the participants about the plagiarism – its meaning, types and methods of combating. And, he demonstrated on the ways of writing references properly in a research paper using MS Word and free softwares. After a formal feedback by the participants, the programme came to a close.

More than 90 students and MPhil scholars participated in the seminar and got benefitted.
