Workshop on Internet of Things (IoT) 4.0

PG and Research department of Computer science organized one day workshop on IoT 4.0. for UG and PG students on 28.01.2020. The workshop was specially meant for local and regional students with a view to make the students gain in-depth knowledge and hands on experience in Internet of Things. Since the workshop mainly concentrates on Hands on Training the number of participants was restricted to maximum of 60 participants. 57 students participated in the workshop and out of them 44 are from our department PG and PGDCA courses and 13 are from other colleges like NPR College of Arts and Science, Natham , GTN College of Arts and Science , Dindigul and Parvathy's College of Arts and Science Dindigul.

The workshop was formally inaugurated and presided over by Principal Dr.C.Ladha Pooranam and Ms.S.Krishnaveni , Head of the Department, welcomed the gathering.

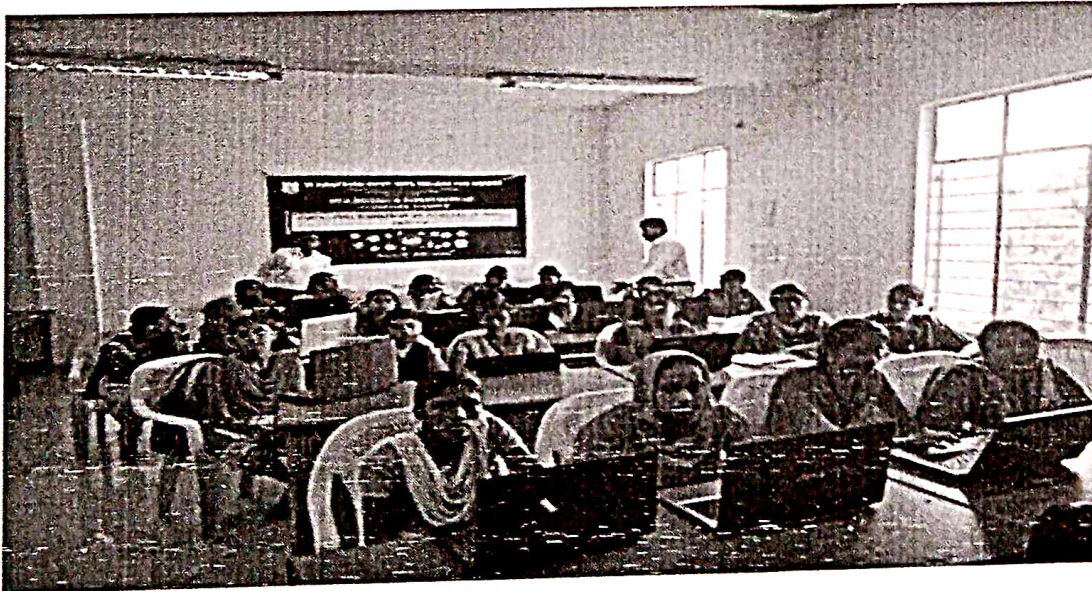

Three experts from TwirlTact Coimbatore were the resource persons. The workshop started with the lecture session on basics of Electronics. The following topics were explained in detail by the experts with hands on training

- Programming Fundamentals using Arduino IDE
- Working with Arduino with data acquisition using IoT devices
- Understanding the Inputs from Sensors
- Understanding the outputs
- IoT Connectivity

At the end of the day, in the valediction, the participants gave their feedback. The participant's feedback reflected that, they were equipped with a deep understanding of the topics covered. The participation certificates were distributed to all participants.
